

1. State the six elements of a call for fire? (FM 6-30)

---

---

---

---

2. State the number of transmissions which are normally in a “call for fire” and the required information for each transmission? (FM 6-30)

---

---

---

---

3. State and explain the four types of missions which normally are communicated during the first call for fire transmission? (FM 6-30)

---

---

---

---

---

---

4. What are the three methods in which target location can be communicated to the Fire Direction Center {FDC}? (FM 6-30)

---

---

---

---

---

---

5. What is included in the target description? (FM 6-30)

---

---

---

---

---

---

---

---

6. When a target is “neutralized”, what percentage of destruction is the goal? (FM 6-30)  
Ten percent or more casualties will neutralize a unit.
